# INTRODUCTION

## Purpose

The primary purpose of this seventh edition of the *South Carolina Foundation Directory* is to assist grant seekers in their search for funds to support the programs and projects of their organizations. An attempt was made to include information on all of the active private foundations, community foundations, and grant-making public charities located within the state of South Carolina.

## Methodology

Most entries were compiled from information found on 1997 to 1999 Internal Revenue Service tax returns. Each private foundation is required to file a form 990-PF annually. This form includes information on the foundation's income, assets, expenses, grants or contributions paid, grants approved for future payment, officers or trustees, address, and telephone number. Form 990-PF's can be accessed via the web at either of the following sites: (<http://www.grantsmart.org/search/search.html>) or (<http://www.guidestar.org/index.html>).. Several of the larger South Carolina foundations publish annual reports and have web pages. When available these were used to supplement the information available on 990-PF forms.

## Scope

It must be emphasized that information regarding a foundation's geographical emphasis and fields of interest is based solely upon examination of the lists of grants awarded reported by the foundation in its IRS return. In most cases, the foundations were not contacted; and thus, the information contained in this directory **DOES NOT** reflect any official direct policy statements on the part of the foundations themselves.

This directory is intended to be a starting point for individuals seeking information on the foundations included. Individuals are strongly encouraged to refer to additional sources of information before contacting the foundations.

## Explanation of Entries

Entries are arranged alphabetically by foundation name, followed by the address and telephone number, when available, with additional parts of the entry clearly labeled to show:

- Officers and Board Members
- Program Interests
- Geographic Focus
- Financial Data
- Fiscal Year Ending
- Notes
- EIN number
- E-mail address (when available)
- Web address (when available)

PLEASE NOTE that the telephone number given is sometimes from the item on the foundation's IRS 990-PF return which asks for the location and telephone number of the individual or office which keeps the foundation's books. In a few cases, this location is in a different city than that shown as the foundation's address.

Several of the entries refer to sources of additional information published by the Foundation Center. These publications include:

*The Foundation Directory.* New York: Foundation Center, annual.

*The Foundation Directory, Part 2: A Guide to Grant Programs \$50,000-\$200,000.* New York: Foundation Center, annual.

*Guide to U.S. Foundations, Their Trustees, Officers, and Donors.* New York: Foundation Center, annual.

*National Directory of Grantmaking Public Charities, 2<sup>nd</sup> Edition.* New York: Foundation Center.

### **Geographic focus:**

### **Notes:**

The Sisters of Charity Foundation of South Carolina is a ministry of the Sisters of Charity of St. Augustine, which was instrumental in founding Providence Hospital in Columbia. The Foundation was established in 1997 as an element in the partnership between the Sisters of Charity of St. Augustine Health System and Columbia/HCA. The mission of the Foundation is to address the needs of the poor and undeserved in South Carolina. The Foundation is committed to efforts that help build a sustainable, healthy economy, promote educational success, support stronger families, and contribute to long-term community development. The Foundation offers four kinds of grants:

Good Samaritan Grants - These grants are up to \$25,000 for one year and are given to help support organizations which assist the poor. Applications are due by the first Tuesday in March and the first Tuesday in September. For an application package contact the Foundation office.

Research and Development Grants - These grants are awarded to help in developing approaches to issues in which the Foundation has a particular interest. These grants help the foundation examine the causes of poverty and develop specific plans to deal with it. There is not set limit on the amount of funding. Applicants should provide the Foundation with a brief statement about their proposal activities.

Requests for Proposals/Invited Proposals - These are made by the Foundation to specific organizations requesting them to submit a grant application on a specific topic or issue. Requests for Proposals/Invited Proposals allow the foundation to address the causes of poverty in a strategic fashion. Currently, the "Fatherhood Initiative" grants fall into this category. They may be for as much as \$120,000 a year for a possible three-year period.

Unsolicited Grants - Allows the Foundation to invite the thoughts and suggestions of other organizations for new and original ways of addressing poverty. Those with innovative concepts consistent with the mission of the Foundation should submit a 2 to 3 page letter describing specific goals, concepts, outcomes, and funding projects.
